

HAWKER AERO

26V Portable Starting Units

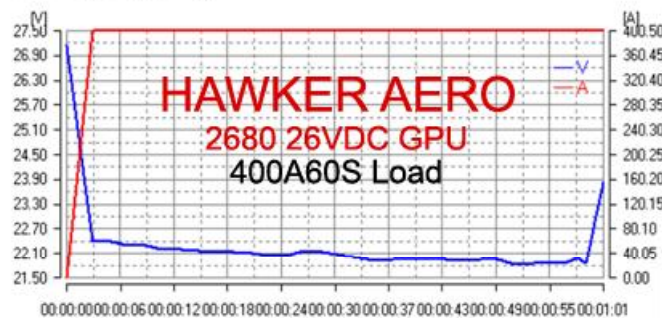

Model 2680

The Hawker Aero GPU utilizes the newest technology in Lithium iron phosphate batteries. These LFP batteries have double the battery life of lead-acid batteries.

This portable GPU is a 26VDC battery pack. Each GPU is suitable for the aircraft which has the protection that no more than 28.6 volts. For example, **Pilatus pc6/pc12**.

Each GPU is suitable for the aircraft which has the protection that no more than 29.9 volts. For example, **AW139, Sikorsky S-76D**.

The modular design allows two GPUs to be paralleled to double the continuous output and battery capacity.

Specifications

- Peak Current 2700A
- Max continuous amps 800A5S 400A100S
- Nominal voltage DC25.6V (24V-27.8V)
- Max voltage DC28.3V
- Amp/hour capacity 80Ah@10hr rate(20°C)
- Operating temp -30°C to +60°C(-22°F to +140°F)
- Case Aluminum, superficial static electricity spurts
- Aircraft cable 2m(6ft) with Nato connector
- Input voltage 90-240VAC 50/60HZ
- Input current ≤35A
- Dimensions H355L457W137mm(H14L18W5 In)
- Weight 18kgs(39lbs)
- Supplied with unit Charger(90-250VAC, 50/60Hz), Aircraft cable

PLEASE NOTE: Never run the batteries down below 22 volts, during a start is okay.
When the battery automatically shuts down due to zero charge, please recharge immediately.

Supplied as standard with

Optional extras

All HAWKER products come with a 1-year warranty on workmanship and materials. Batteries are cycle-dependent and therefore are not covered under this warranty. Batteries have no memory effect and can be recharged at anytime.
